Team Overview

We are **Team** _____, from _____! Now entering our ## year in the FIRST Tech Challenge (FTC) competition, our team is _____. Throughout this FTC season and the ones before, we _____. We aim to _____.

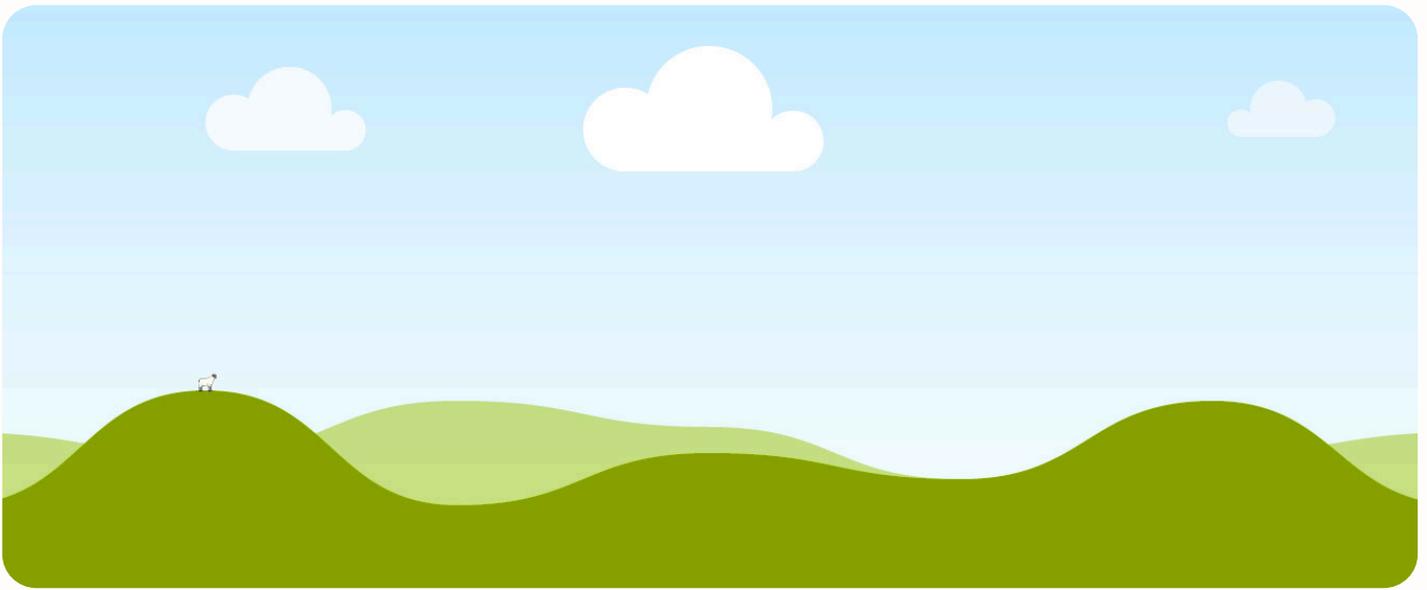

Members

Team Captains: Names

Team Mentor: Names

Mentors don't build the robot but, rather, motivate the team and guide us in the right direction to keep working towards innovating impactful solutions!

Team | Season

Skill Development

This season, we aimed to:

- **Goal 1**
 - **Achieved by:**
 - Explanation
 -
- **Goal 2**
 - **Achieved by:**
 - Explanation
 -
- **Goal 3**
 - **Achieved by:**

Engineering Process

1. Brainstorming

- Elements of Brainstorming

2. Design/Plan

- Elements of design/plan

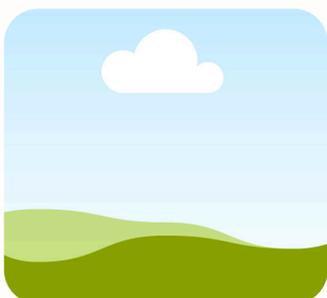

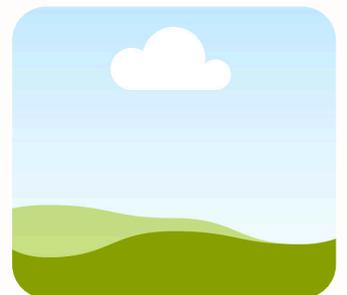

3. Prototype & Analyze

- Elements of prototype and analyze

4. CAD

- Elements of CAD

5. Build

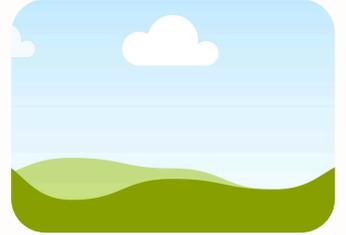

- Elements of building

Engineering Process

6. Test

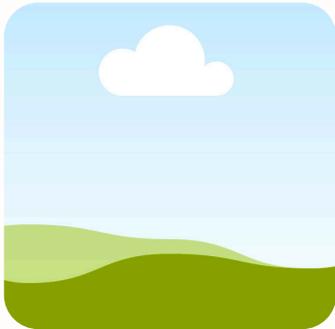

- Elements of testing

7. Evaluate & Iterate

- Elements of evaluating and iterating

8. Repeat!

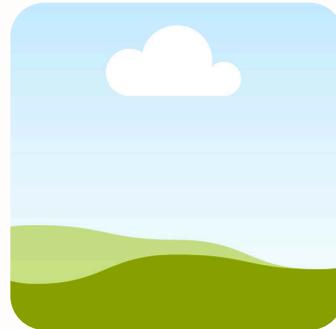

1

2

3

4

Important Requirements of the Robot and its Mechanisms:

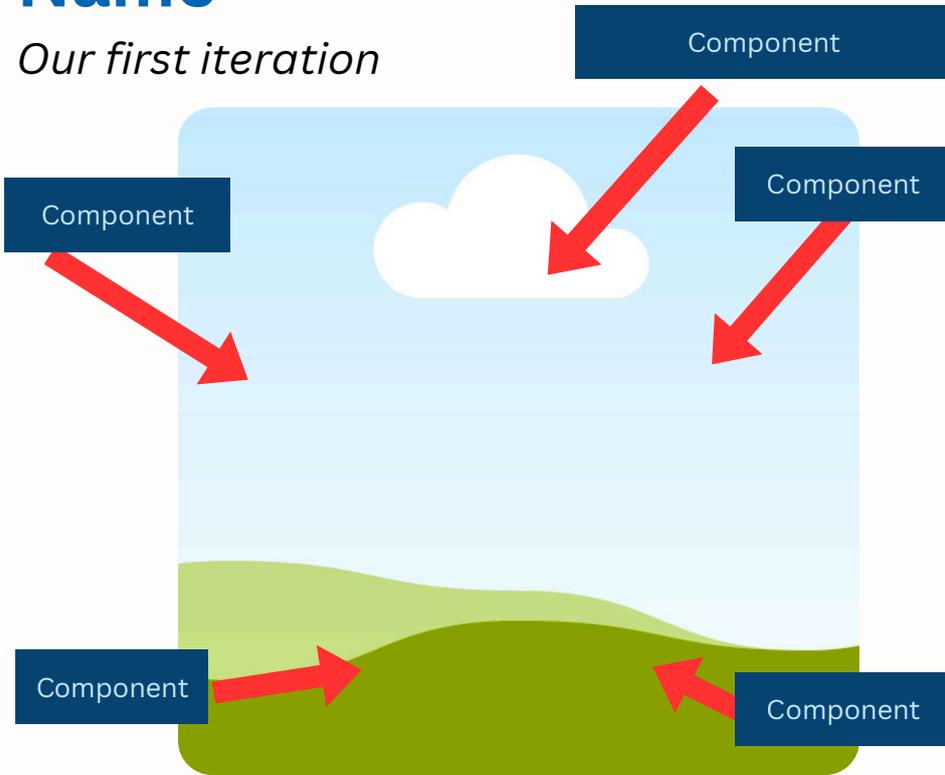

- Feasibility - *Is it possible?*
- Reliability - *How consistent are the mechanisms' performances?*
- Durability - *How robust and durable is it?*
- Simplicity - *Is it too complicated? Is it so complex that it becomes difficult to use?*
- Reality - *Is it too expensive to produce or replace if broken?*

Iterations

Tele-Op

Our tele-op period focused on _____. Pros and Cons of Tele-Op. What the tele-op allows the team to do

Finances

Cost-Benefit Analysis

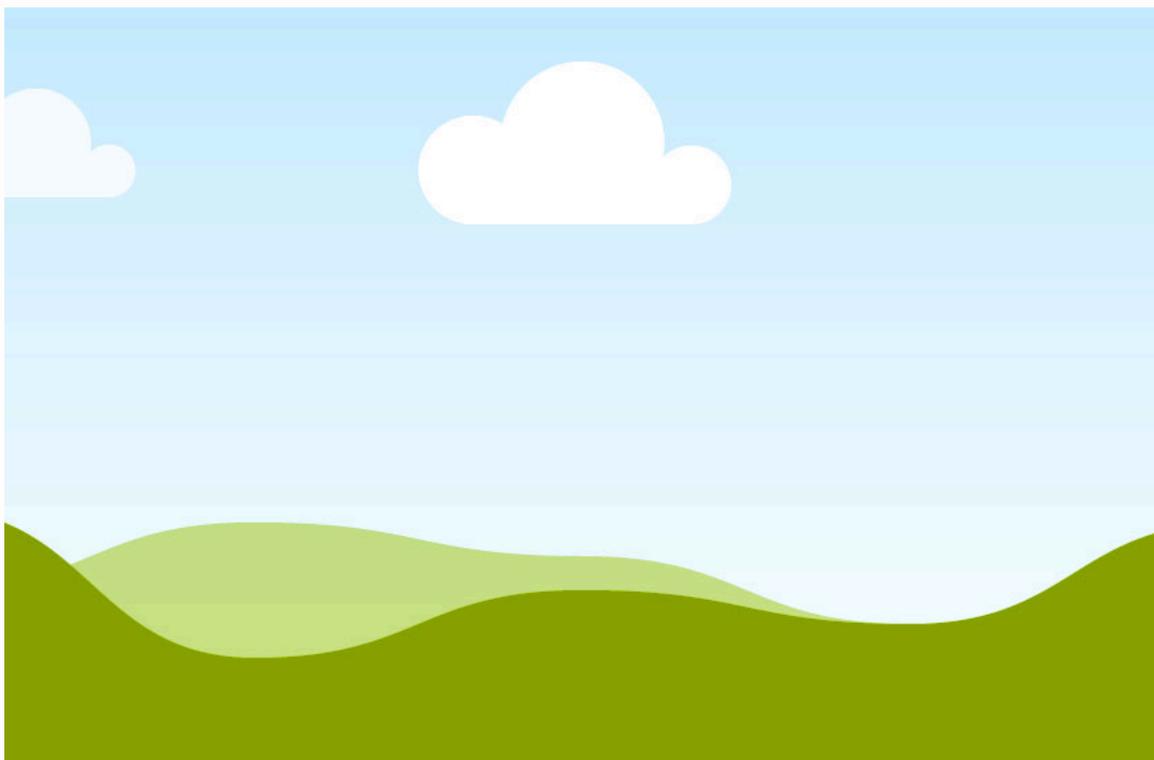

Explanation

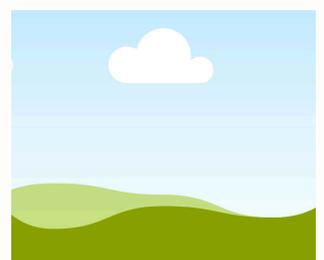

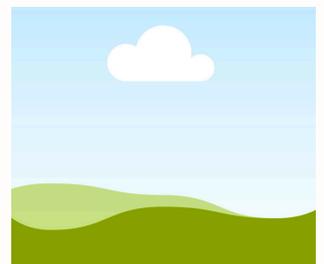

Pros: list out pros

Cons: list out cons

Considering its benefits in competition, we decided it was worth it!

Sponsors

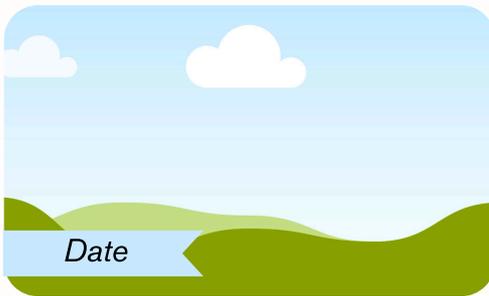

Outreach

*"FIRST Core Values...emphasize **friendly sportsmanship, respect for the contributions of others, teamwork, learning, and community involvement** and are part of our commitment to fostering, cultivating, and preserving a culture of equity, diversity, and inclusion"*

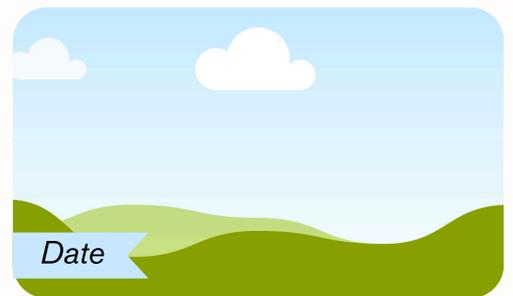

Community Outreach

As we are paving the pathway for innovation in the present, we strongly believe in educating the engineers of tomorrow. Through robot demonstrations and activities in many events, we have cultivated a growing passion for STEM among the youth, also interesting parents in FTC and FLL teams.

Outreach

Professional Outreach

As we toil on our robots, we find it important to understand the technological advances and innovations of professional companies to solve real-world issues! This inspires us in the world of STEM, while also showcasing the youth of innovation.
